

Photos on HD Metal

ORDER ONLINE
NO APP REQUIRED

Ready from **2 week days** or **Express 4hrs Production (Mon-Fri)***

Your photos & artwork as you've never seen them before. Vivid colour with a "Kodachrome" saturated look, showing great depth & clarity. Waterproof, very durable, perfect for all rooms in your home or office out of direct sunlight. Stable surface not affected by heat and humidity. Cleans like glass. Perfect for commercial use with signs in foyers and offices. Light weight so they're much easier to post than glass frames. 100s of unique templates to make your photos shine.

Choose Single Layer (1 panel) Your image on a single panel OR Twin Layer (2 panels) One panel shadow mounted (set forward by approximately 1cm) over a second larger panel. Wide range of textures, patterns & graphics to choose from, or create your own.

Select one of two distinct surfaces. Brushed HD Metal with a high gloss finish. Allows the surface of the metal to show through in white image areas giving it a metallic luminescence. A very artistic look that works well with high key and high contrast images, cars and metal subjects, signs etc.. OR White HD Metal with a high gloss finish. The most accurate photo quality look where whites are white. An excellent surface for any subject matter.

Smaller sizes are displayed with a metal easel including hanging slot for table or wall use. Larger sizes come standard with a metal easel or change to a shadow mount block for a floating effect. Premium metal plate with hanging slot is mounted off the back with a wood block. Also includes rubber cushioning bumpers to protect walls. The shadow mount option is wall mountable only.

Single Layer Rectangle	4hr Exp	48hr Std
4x6" 10x15cm - easel only	23.00	19.00
