

Ready from 2 week days*

High quality scans performed on site with professional grade scanners. Prices are for raw scans. For basic colour correction see charges at bottom of page. Please note, older films often degrade in quality over time in which case the prints may be of better quality to scan. Neg & slides in oversize pro lab mounts or with paper strips attached must be removed prior to scanning - add 75c per removal.

File "Delivery" For smaller orders (up to 500mb) we'll email you a Dropbox link to download. Larger jobs on disc or self supplied USB.

Complete Uncut Rolls & Cut Strips + Select Frames

Strips must be a minimum of 2 frames long. (Cut strips, 35mm up to 36exp per whole roll)

†low res option available on 35mm only

Mounted Slides & Single Cut Frames

Mounted 120 and oversize large format slides can also be scanned at the 1-4 Pro Res rate. Please note that Kodachrome and some other brands usually have a strong Cyan / Blue colour cast when scanned due to the the emulsions dye composition. For colour corrected files see below.

*A \$10 minimum order value applies to all orders (excluding shipping where applicable) True black & white film scans may contain fine dust marks due to its static nature and lack of digital ICE availability on single emulsion layer films »126 format will crop off side flush with edge of the film. Service times are dependant on workload and may be longer during peak periods. Call ahead to confirm turnaround if you have a deadline to meet. Prices include GST and are subject to change and stock availability. 22nd September 2018 - supersedes all prior pricing.
